

Are you receiving a rebate on calls from your alarm panels?

You may not be aware that every time your customers' security system is turned on and off, is triggered by an event or is tested, you have the potential to earn income! We have devised a process that is simple and easy for you to start generating an additional revenue stream immediately, whether you need a new number or have an existing service in place.

THE GLOBE TELECOM OFFER !

Receive a *rebate of
12 cents

Or more for every call made from your alarm panels using the 1345 Safe Dial service.

*View your call details via our web portal in near real time!
Ask for a demonstration!

*"You could be receiving *rebates from security dialler events that are happening every day!
That's income from a service that you already have in place."*

* Rebates are offered in accordance with Globe Telecom & their elected Service Providers Terms & Conditions.

**To start receiving your rebates
Call now! - 1300 73 73 14**

HERE'S HOW IT WORKS...

1. Globe Telecom allocates you with a 1345 Safe Dial number.
2. This number is terminated at your nominated Control Room.
3. Each security panel dialler at your customer's premises is then programmed with your new 1345 Safe Dial number. *(not required if porting an existing 1345 service.)*
4. Your customer is charged a flat 27 cent local call fee, by their telco provider for each signal sent down the line. (eg: Alarms, Test Reports, Openings and Closings).
5. Globe Telecom works with the various telco providers in terms of settlements with each of the parties involved.
6. Globe Telecom then provides you with a rebate for every call made from your customer's alarm panels.
7. Rebates are paid monthly in arrears into your nominated bank account.

ADVANTAGES OF A SAFE-DIAL NUMBER WITH GLOBE TELECOM

1. Application process is simple and expedient. (existing 1345 numbers can be ported immediately!)
2. No set up or ongoing costs.
3. No term contracts.
4. Rebates paid promptly each month with complete reporting.
5. Ability to view your call details via our secure web portal, in near real time.
6. Adds value to your customer base and hence your business.
7. It is your Safe Dial number and is therefore fully portable, so you can change your control room without ever having to re-program your customer's alarm panels again!
