

Powerful solutions to drive your business.

Are you receiving a rebate on calls from your alarm panels?

Every time your customers' security system reports opens and closes, is triggered by an event or sends a test, you are eligible to be paid a call rebate! We have devised a process that is simple and easy for you to start receiving rebates immediately, whether you need a new number or have an existing service in place.

The Globe Telecom Offer

Receive a *rebate of **12 cents** or more for every call made from your alarm panels using the 1345 Safe-Dial service.

*View all your call details via our web portal in near real time! SMS alerts, advising of runaway diallers. Ask for a demonstration!

"You could be receiving *rebates from security dialler events that are happening every day! That's income from a service that you already have in place." To start receiving your rebates call now! **1300 73 73 14.**

*Rebates are offered in accordance with Globe Telecom and their elected Service Providers Terms & Conditions.

Here's how it works...

1. Globe Telecom allocates you with a 1345 XXXX Safe-Dial number.
2. This number is terminated at your nominated Control Room.
3. Each security panel at your customer's premises is then programmed with your new 1345 Safe-Dial number. (Not required if porting an existing 1345 service.)
4. Your customer is charged a flat 30 cent local call fee, by their Telco provider for each signal sent via the 1345 number. (e.g. Alarms, Test Reports, Openings and Closings).
5. Globe Telecom works with the various Telco providers in regards to settlements with each of the parties involved.
6. Globe Telecom then provides you with a rebate for calls made from your customer's alarm panels.
7. Rebates are paid monthly in arrears into your nominated bank account.

Advantages of a 1345 number with Globe Telecom.

1. Application process is simple and expedient. (Existing 1345 numbers can be ported immediately!).
2. No set up or ongoing costs.
3. No term contracts.
4. You own the Safe-Dial number and is therefore fully portable, so you can change your control room without ever having to re-program your customer's alarm panels again.
5. Rebates paid on time – every time, each month with complete reporting.
6. Ability to view your 1345 call details via our secure web portal, in near real time.
7. SMS/Email Alerts can be sent advising of runaway diallers, enabling you to be proactive in contacting your customer.
